CAREER OBJECTIVE

Seeking Software Engineer skilled in Python, HTML, CSS, JavaScript, React.js, and Django. Experienced in front-end development, Agile methodologies, and UI/UX enhancements. Proficient in project management, collaboration, and driving website performance improvements.

EDUCATION

Bachelor of Technology in Civil Engineering
Aditya College of Engineering and Technology

August 2020 – June 2023
CGPA: 7.68

Diploma in Civil Engineering
Nova College of Engineering and Technology

June 2017 – July 2020
Percentage: 75

TECHNICAL SKILLS

- Programming Languages:** Python
- Web Technologies:** HTML, CSS, JavaScript, React.js
- Framework:** Django
- Database Knowledge:** SQL
- Operating Systems:** Windows, Linux
- Software Proficiency:** MS Office, PowerPoint

INTERNSHIP

Afame Technologies
Web development Intern

January 2024 – May 2024

- Spearheaded front-end development initiatives, optimizing website responsiveness and user experience, increase in site traffic within three months.
- Collaborated with cross-functional teams to implement Agile methodologies, enhancing project efficiency, and reducing development time by 15%.
- Conducted comprehensive website audits, identifying and resolving 30+ bugs and issues, leading to boost in overall website performance.
- Designed and implemented innovative UI/UX enhancements, increase in user engagement and a 10% decrease in bounce rate.
- Contributed to the development of scalable web applications, integrating new features and functionalities, leading to improvement in application performance.

PROJECTS

Personal Portfolio Website

March 2024 – April 2024

- Developed dynamic user interfaces utilizing HTML, CSS, and JavaScript to enhance user experience, increase in user engagement.
- Implemented backend functionalities with Python, optimizing data processing and improving system efficiency, leading to a 10% reduction in server response time.
- Cooperated with cross-functional teams to analyse project requirements, ensuring alignment with expectations, and achieving client satisfaction rate.
- Deployed version control systems such as Git to manage project iterations and streamline collaboration, reducing code conflicts.

TRAININGS & CERTIFICATIONS

- Certified in Web Technologies at HackerRank.
- Achieved certification in Python for Machine Learning.
- Gained proficiency in Frontend Development-HTML through Great Learning.
